

J100 Electric Grease Pump

The J100 series pump system can lubricate up to 100 lubrication points, and the main line can be up to 15 meters long. It has a pressure relief valve to make it suitable for use in the lubrication system of a single-line pressurized distributor. The J100 is available in two versions, with reservoir or cartridge, with up to 2 lubricant outlets and can be equipped with level monitoring. Mainly used in automation, machine tools, material handling, plastic injection molding, etc. Working temperature 0~50°C.

Specification

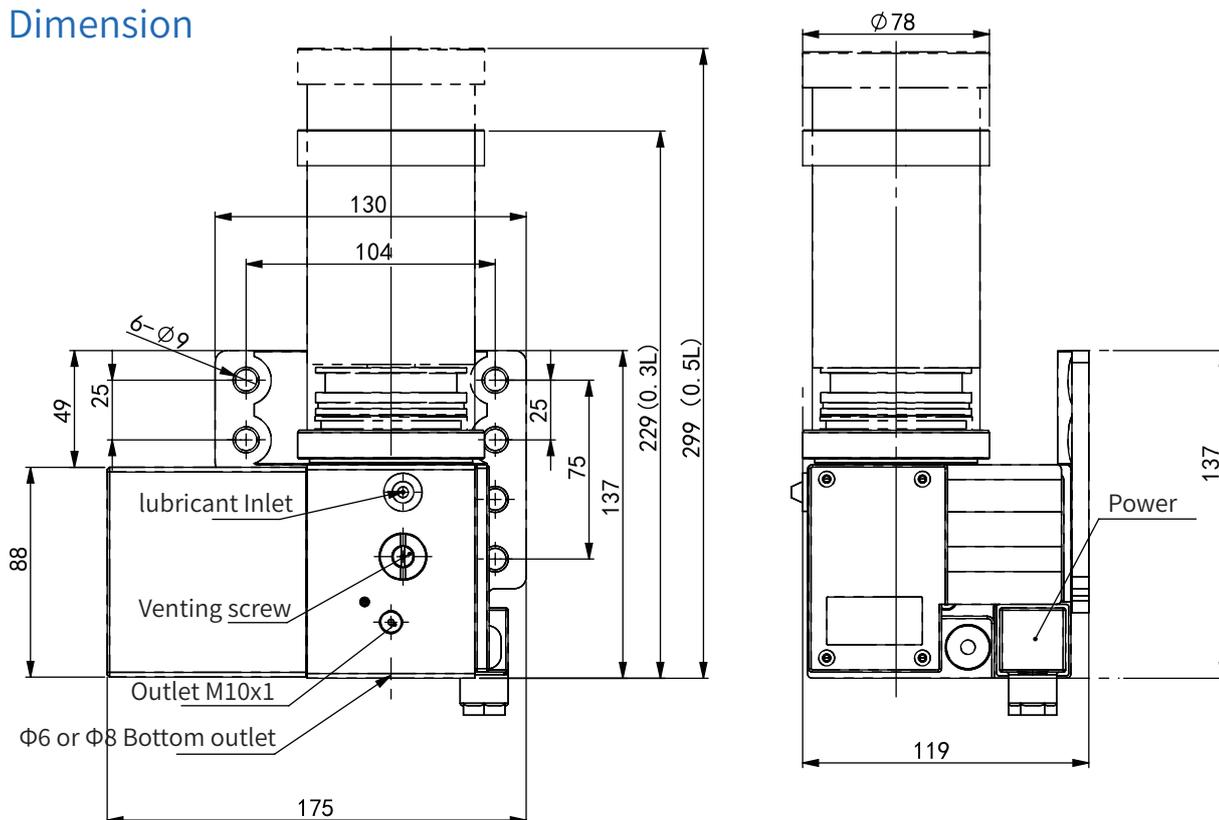

Voltage	Discharge	Pressure	Outlets	Cartridges	Reservoirs	Lubricants	Protection	Mounting	Certification
24VDC	15mL/min	Max 8MPa	1 or 2	0.3L, 0.7L	0.3L, 1.5L	NLGI 000~2#	IP54	Upright	CE

Order Code

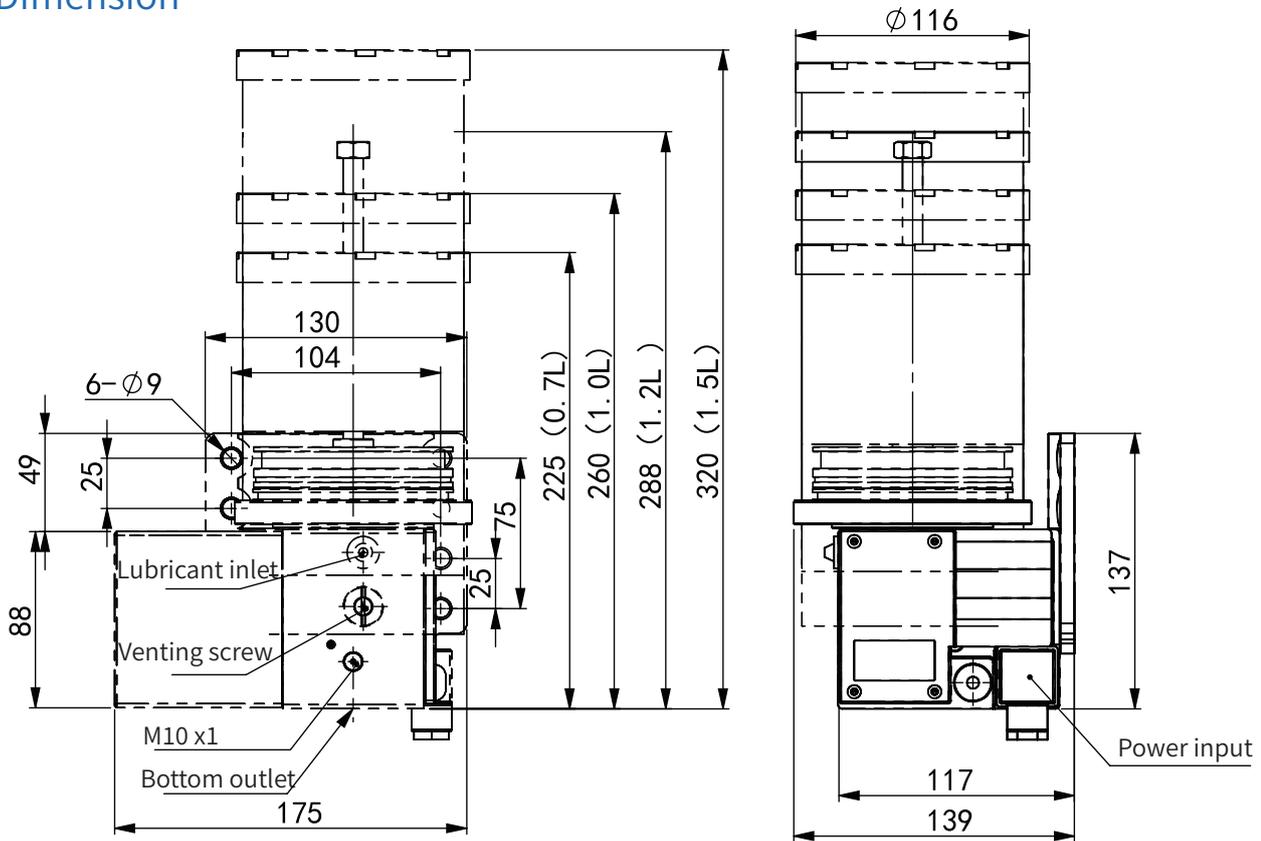

J100 15 1 1

- 1 = with controller, 0 = external controller
- 1 = Pressure-relief type, 0 = Progressive type
- 03 = 0.3L reservoir, 15 = 1.5L reservoir, 03C = 0.3L cartridge, 07C = 0.7L cartridge, 00C = no cartridge
