

SL-1 Grease Injector

Features

- Design for single-line high pressure automatic ubrication system.
- Suitable for dispensing grease compatible up to NLGI #2.
- Grease output is adjustable.
- Indicator pin allows convenient visual inspection of injector operation.
- Each injector can be removed easily for inspection or replacement.
- High quality single zinc-nickel surface treatment to achieve high corrosion resistance, to provide full protection in high corrosion environment.

Specification

No. of Outlet	1 (JL-11)	2 (JL-12)	3 (JL-13)	4 (JL-14)	5 (JL-15)	6 (JL-16)
L1(mm)	-	-	32	63.5	95	126.5
L2(mm)	63	77.5	109	140.5	172	203.5
